

To Whom It May Concern

Patient's name: Mr. Taro Yamada

This haemophilic patient with Factor VIII (Factor's number or name) deficiency is well known to me.

If internal or external bleeding occurs,

the patient responds well to early self-infused transfusions of

Antihaemophilic Factor (Recombinant or Plasmaderived).

Name: Taro Yamada's judgment as to when

Antihaemophilic Factor (Recombinant or Plasmaderived)

should be used and as to the quantity, may be relied upon.

Sincerely yours,
